

Armando Baruc Carrillo Gutiérrez

Nayarit, México · www.linkedin.com/in/baruccarrillo · +52 311 102 6530 · baruccarrillo@outlook.com

Results-oriented Full-Stack & Mobile Developer with a versatile technical profile. Specialized in creating high-performance web interfaces and cross-platform mobile applications. Proven experience designing robust Back-End architectures using SOLID principles and Agile methodologies like Scrum and Kanban to ensure efficient delivery. Capable of integrating into multicultural teams with advanced English proficiency.

PROFESSIONAL EXPERIENCE

Blueberry

Full-Stack Web Developer JR

Guadalajara, Jal.

January 2026 – April 2026

- Developed and implemented highly responsive and intuitive user interfaces using React, SCSS, and external libraries, optimizing accessibility and visual experience.
- Designed and built scalable Back-End services using Node.js, strictly applying SOLID principles to deliver clean, modular, and maintainable code.
- Managed and optimized both relational (MySQL, SQL Server) and non-relational (MongoDB, Firebase) data architectures, ensuring integrity, security, and fast data access.

PROJECTS AND TECHNICAL DEVELOPMENT

Universidad Tecnológica de Nayarit-Xalisco

Multi-platform Software Developer

Xalisco, Nayarit

August 2022 – April 2026

- Created and integrated multi-platform websites by implementing full CRUD operations, connecting the Front-End with dynamic databases.
- Developed a dual-purpose web application for inventory tracking and digital advertising, implementing full CRUD functionality to link dynamic ASPX front-end views with a .NET and MySQL Server backend.
- Collaborated actively in multidisciplinary teams under the Scrum agile framework, facilitating organization, flexibility, and rapid adaptation to new technologies.

EDUCATION

Universidad Tecnológica de Nayarit

B.S. in Software Development and Management (In Progress)

Associate Degree in Information Technology

Xalisco, Nayarit

August 2022 – April 2026
